

### Expertise

Pipefix are specialists in water, sewerage and drainage systems. The company has been established since 1984 and is managed by a team of qualified water industry experts. All our operational teams are trained by Wessex Water.

We offer surveying, feasibility studies, design, specification and project management services as well as delivery of the works. All our services are tailored to meet your individual needs.

### Health & Safety

Health & Safety is extremely important to us and our safety record exceeds the National HSE & HSE Construction Industry standards. All our supervisors have the IOSH accreditation 'Managing Safely'.

### Service

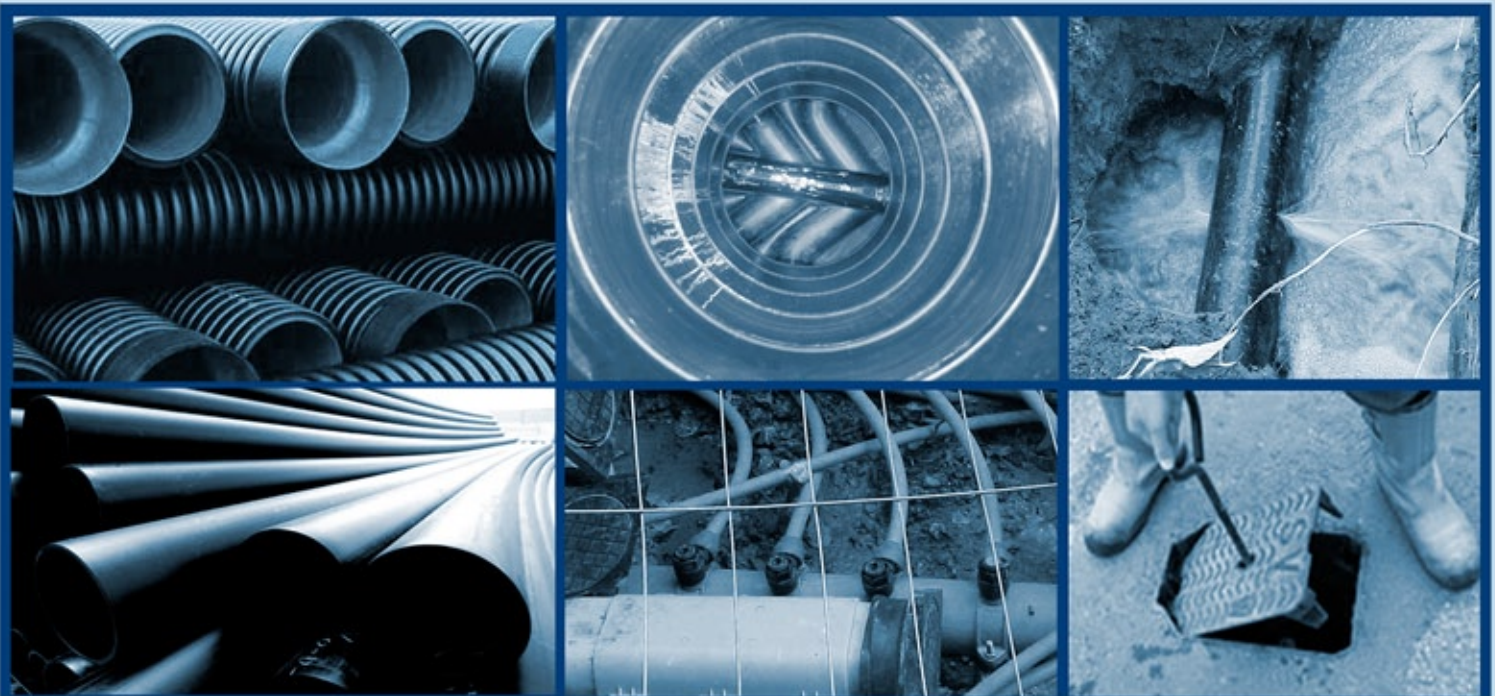

Our offices are staffed by water experts, enabling you to talk to experienced people whenever you need to. We continually monitor customer feedback to ensure that we are delivering the highest possible standard of service at all times.

### Quality

Pipefix are ISO 9001 accredited and we aim is to deliver the highest possible quality of workmanship at all times. All our works are guaranteed and our services are endorsed by Wessex Water.
